

SILILO SIMUSHI

CURRICULUM VITAE

Software Engineering Student — 3rd Year

The University of Zambia | +260 969 215 929 |

sililo.simushi@cs.unza.zm |

<https://sililosimushi.github.io/sililo-portfolio/>

PERSONAL DETAILS

First Name : Sililo
Surname : Simushi
Sex : Male
Date of Birth : 19th July 2006
NRC No. : *****
Marital Status : Single
Religion : Christianity
Physical Address : Plot #: 349, Nkrumah, Kabwe
Cell : +260969215929 / +260770829412
Portfolio : <https://sililosimushi.github.io/sililo-portfolio/>
Email address : sililo.simushi@cs.unza.zm / jamiesililosimushi@gmail.com

ACADEMIC/PROFESSIONAL QUALIFICATION

YEAR	INSTITUTION	QUALIFICATION AWARDED
2024 to date	University of Zambia	Bachelor of Computer Science, Software Engineering (3rd Year)
2026, April	Cisco Networking Academy / UNZA	CCNA: Introduction to Networks Certificate
2026, January	University of Zambia (CICT)	Certificate of Competence — Data Management and Analysis Using R-Programming
2026, January	University of Zambia (CICT)	Certificate of Competence — Cyber Security
2025, September	Cisco Networking Academy / UNZA	C++ Essentials 1 Certificate
2025, July	Cisco Networking Academy / UNZA	Linux Essentials Certificate
2025, April	Cisco Networking Academy / UNZA	IT Essentials Certificate
Valid until Apr 2028	Dahua Technology	DHCA-IPVSS (IP Video Surveillance Systems) Certificate
Valid until Apr 2028	Dahua Technology	SMB Perimeter Protection Certificate
2020 – 2022	Kabwe Secondary School	Grade 12 School Certificate

WORK EXPERIENCE

Backend Development Intern CodeAlpha (Remote)

- Completed a structured backend development internship building systems with Python, Django, and Django REST Framework.
- Delivered a Restaurant Management System, an Event Registration System with token authentication, a Job Board Platform (Vantage), and a URL Shortener.

Salesperson Agro Shop, Kabwe (Nov 2022 – Feb 2024)

- Advised small-scale and commercial farmers on agricultural products, practicing consultative selling and communicating in English, Bemba, and Nyanja depending on customer preference.

SPECIAL ACHIEVEMENTS

Recommended for internship placement by the Dean, School of Natural & Applied Sciences, University of Zambia.

LANGUAGES

- English, Bemba, Lozi, Nyanja, Luvale

REFEREES

Prof. J. Phiri
Department of Computing & Informatics
University of Zambia
P.O. Box 32379
Lusaka

Mr. Theo
Department of Computing & Informatics
University of Zambia
P.O. Box 32379
Lusaka

Mrs Leen Khuma
Department of Computing & Informatics
University of Zambia
P.O. Box 32379
Lusaka

PROFESSIONAL PROFILE

A results-driven **third-year Bachelor of Computer Science (Software Engineering) student at the University of Zambia**, offering expertise in full-stack development, relational database design, and building scalable backend systems. Works across frontend and backend development, with additional training in networking, Linux systems, and cybersecurity. Has a proven ability to translate complex logic into clean, maintainable code, optimize performance under heavy load, and collaborate across teams to ship reliable software.

Sililo has training in **CCNA: Introduction to Networks, IT Essentials, Linux Essentials, C++ Essentials 1**, certifications in **Cyber Security and Data Management and Analysis Using R-Programming** from the University of Zambia's Centre for Information and Communication Technologies, and certifications in **IP Video Surveillance Systems and SMB Perimeter Protection** from Dahua Technology.

EDUCATION

UNIVERSITY OF ZAMBIA — Lusaka, Zambia
Bachelor of Computer Science, Software Engineering
Third Year | Currently Pursuing

Relevant Areas of Study:

- Computer Programming
 - Data Structures and Algorithms
 - Computer Networks
 - Operating Systems
 - Database Systems
 - Software Engineering
 - Computer Systems and Architecture
 - Information Technology
-

PROFESSIONAL CERTIFICATIONS & TRAINING

CISCO NETWORKING ACADEMY

CCNA: Introduction to Networks — Certificate Awarded

- Developed foundational knowledge of computer networking and network communication.
- Gained understanding of networking architectures, protocols, devices and connectivity.
- Developed knowledge of IP addressing and basic network configuration concepts.
- Built a foundation for network troubleshooting and network administration.

Linux Essentials — Certificate Awarded

- Developed fundamental knowledge of Linux operating systems.
- Gained familiarity with Linux commands, the command-line environment and basic system concepts.
- Developed an understanding of Linux users, permissions, files and directories.

IT Essentials — Certificate Awarded

- Developed foundational knowledge of computer hardware and software.
- Learned basic computer maintenance, troubleshooting and technical support concepts.
- Gained knowledge of computer components, operating systems and common IT problems.

C++ Essentials 1 — Certificate Awarded

- Developed foundational knowledge of C++ programming.
- Gained experience with programming fundamentals, variables, data types, operators and control structures.
- Strengthened logical thinking and computational problem-solving skills.

UNIVERSITY OF ZAMBIA — CENTRE FOR ICT (CICT)

Cyber Security — Certificate of Competence

- Built foundational knowledge of common threats, attack vectors and security best practices.
- Gained hands-on exposure to Wireshark for network traffic analysis, Kali Linux for security testing, and Nmap for network scanning.
- Developed a practical understanding of keeping networks and information safe from unauthorized access.

Data Management and Analysis Using R-Programming — Certificate of Competence

- Developed skills in cleaning and wrangling data using dplyr and tidyr.
- Built data visualizations using ggplot2 to identify patterns and communicate insights.
- Applied statistical analysis techniques to draw data-driven conclusions.

DAHUA TECHNOLOGY

DHCA-IPVSS (IP Video Surveillance Systems) Certificate

- Gained knowledge of IP video surveillance system design, configuration and deployment.

SMB Perimeter Protection — Certificate

- Gained hands-on exposure to CCTV and camera systems, access control and alarms, and network security devices including firewalls and NVRs.

TECHNICAL SKILLS

Networking

- Computer networking fundamentals
- IP addressing
- TCP/IP fundamentals
- Basic network configuration and troubleshooting
- Networking devices and infrastructure

Programming & Web

- Python (Django, Django REST Framework)
- C++
- R
- HTML, CSS, JavaScript
- REST APIs
- Problem solving and algorithmic thinking

Security

- Cybersecurity fundamentals
- Network traffic analysis (Wireshark), security testing (Kali Linux), network scanning (Nmap)
- IP video surveillance systems
- SMB perimeter protection (CCTV, access control, network security devices)

General Computer Skills

- Microsoft Office
 - Git & GitHub
 - Internet and digital technologies
 - Technical documentation
-

KEY COMPETENCIES

- Problem Solving: Able to analyse technical problems logically and work towards practical solutions.
 - Technical Learning: Demonstrated commitment to continuous learning through university studies and professional certifications.
 - Networking Knowledge: Strong foundational understanding of networking concepts gained through CCNA training.
 - Adaptability: Able to learn new technologies and work in changing technical environments.
 - Teamwork: Capable of collaborating with others to achieve academic and technical objectives, demonstrated through the CodeAlpha internship.
 - Communication: Able to communicate technical concepts clearly and professionally in English, Bemba, Lozi, Nyanja, and Luvale.
 - Attention to Detail: Careful and methodical when approaching technical tasks and troubleshooting.
-

AREAS OF PROFESSIONAL INTEREST

- Software Engineering
 - Backend & Full-Stack Development
 - Computer Networking
 - Cybersecurity
 - Database Design
 - Systems Administration
 - IT Infrastructure
 - Network Security
-

ACADEMIC & PROFESSIONAL DEVELOPMENT

Currently pursuing a Bachelor of Computer Science (Software Engineering) while complementing university education with industry-recognised technical training through Cisco Networking Academy, the University of Zambia's Centre for ICT, and Dahua Technology. This combination of academic study and practical-oriented certification training, alongside a backend development internship at CodeAlpha, has provided a broad foundation in software engineering, networking, security, and systems.

CAREER OBJECTIVE

To secure a software engineering internship or entry-level technology opportunity where I can apply my academic knowledge, backend development experience, and technical training in a real-world environment. I aim to develop practical expertise in full-stack development, networking, and cybersecurity while contributing to organisational objectives and continuously expanding my professional capabilities.
